

INSTALLATION INSTRUCTIONS

EPR Safety Mat

Product Code: EPRSM-1M

Description: Earth potential rise (EPR) safety mat, 1 x 1.5 m, complete with bonding clamp.

- Disconnect fastening straps to unroll EPR SAFETY MAT.

- MAT must be installed with the blue surface facing upwards and the all-black surface facing downwards.
- Use supplied bonding clamp (attached to MAT) and connect to nearest adjacent equipment or conductive point.

- Users must not stand outside the labelling near the edges of the MAT (either one foot or both feet).
- Users must not touch any other conductive structures adjacent to the MAT, unless the MAT is bonded to the structure as per instruction.
- When use of the MAT is complete, roll the MAT up so the blue layer is on the outside and visible.
- Use supplied fastening straps to secure rolled up MAT.
